TAYLOR SEES HOW TO MAKE SAVING ON MAOLE DITCH

Figures Submitted to Water
Investigation Commission for
Hillebrand Glen Work

NEXT SCHEME WILL BE
TO DIVERT MANOA FLOW

Field Party Head Will Investi-
gate Feasibility of Turning
Water Into Nuuanu

Five hundred and thirty-nine million gallons of water a year can be secured and diverted into Nuuanu Reservoir No. 4, according to the report of James T. Taylor, engineer for the Honolulu water investigating commission. His preliminary report on the available water supply from Maole stream, Hillebrand glen, was presented this morning and shows that this amount of water can be secured by the construction of a conduit at a total cost for all expenses of \$24,955.

This amount, says Mr. Taylor in his report, is "approximately 25 per cent less than the plan of tunnel and pipe lines as proposed by the city engineer, at a cost of \$33,500."

With his report the engineer filed a blue-print contour map from the preliminary survey of the proposed conduit.

Hillebrand glen is in Upper Nuuanu valley. Immediately following the reading of the report, which was adopted, John Wilson, member of the water investigation commission, moved that the engineer take his field party and begin work at once in Maole valley on a preliminary survey to ascertain the feasibility of diverting the headwaters of this valley across the Nuuanu valley and into Reservoir No. 4. The motion carried unanimously.

In the absence of Chairman Lorrin A. Thurston, Charles R. Forbes presided as chairman, appointing Jorgensen, James Taylor and T. F. Sedgwick a special committee to take up the investigation of seepage in No. 4 reservoir. It is estimated that this investigation should be completed within a month at least. The committee will also take up with Land Commissioner Joshua D. Tucker the matter of placing the proposed conduit and tunnel on government land.

Engineer Taylor's report is as follows:

Engineer Taylor's report is as follows: I beg leave to make the following preliminary report on the feasibility, the method and the cost of diverting and conveying the available water supply from the Maole stream in Hillebrand glen to Nuuanu Reservoir and dam No. 4 in the Upper Nuuanu valley, Oahu.

General: I have made a careful preliminary survey of a contour grade line with a fall of 10.66 feet per mile from Maole stream below the lower falls, to Nuuanu dam and reservoir No. 4, to deliver the water into the reservoir just mauka of the dam on the Ewa side of the Nuuanu valley at an elevation of 1028 feet above sea level, which is the elevation of the top of the main spillway leading from the reservoir on the

DECEMBER 4 IS DATE CHOSEN TO REPEAT BIG FETE

Will Be Given Out of Doors, as
Originally Planned; Made
\$1265 Saturday

So successful was the Outdoor Circle's fete at the National Guard armory last Saturday afternoon, and so numerous have been the requests for a repetition, that the members of the organization have decided to repeat the affair on the afternoon of December 4.

This announcement was made by the Outdoor Circle today, it being stated that the second fete will be held at the grounds of Mr. and Mrs. Charles Atherton's residence, King and Alapai streets, if the weather is good. It was originally intended to hold Saturday's fete at the Atherton grounds, but incessant rains made necessary a speedy removal to the armory.

As a result of Saturday's fete, \$1265 has come in thus far and will be used to further the good work of the Circle. By the time all the money has been turned in, it is predicted that this amount will be substantially increased. The expenses of the fete were very light, it was announced.

The parade and zoo, features which had to be omitted last Saturday, will be included in the program on December 4. There will be no booths at the repetition, however, and nothing for sale; only the pageant and the fete.

ENGINEER POINTS OUT NEW SOURCE OF WATER

James T. Taylor, M. Am. Soc. C. E., engineer for Water Investigating Commission.

CLARK, FOUNDER OF CHRISTIAN ENDEAVOR, HERE

Stops Off in Honolulu Because
of Ill Health; Plans to Go
on to Visit China

Francis E. Clark, the founder of the World's Christian Endeavor Union, with Mrs. Clark, is a visitor in Honolulu. Mr. Clark is on the way to the Orient to attend meetings to be held by Christian Endeavor societies, but owing to ill health has decided to remain here for some time.

The first society of Christian Endeavor was founded by Dr. Clark in Portland, Me., in 1881. At that time there were but 50 members and the society has grown from that group to 4,000,000 adherents. Mr. Clark was at that time pastor of the Williston church in Portland, Me., and organized the Christian Endeavor society for the betterment of conditions in his parish. When the society was first organized it was not thought that it would ever grow to its present magnitude.

Another society was formed in another church in Portland, and friends who had been active in the work carried the news to other points until there were many societies throughout New England. Friends in England took up the work until the Christian Endeavor had become not only nationwide in its scope, but worldwide.

Dr. Clark spent last year in Russia, Hungary, Bulgaria and other European countries, and has many friends fighting in the present war in Europe. The Christian Endeavor has entered the Orient and now has 800 societies in China, 1500 in India, and hundreds in Japan and Australia. Every country in the world has taken to the society until wherever one goes the Christian Endeavor Society is found. Honolulu has many societies among the Japanese, Chinese, Portuguese, and all other races.

Dr. Clark is a graduate of Dartmouth and of Andover Theological Seminary. From 1883 to 1887 he was pastor of Phillips Church, South Boston, and since that time his work has been as president of the Union. Mr. Clark has been editor of the Christian Endeavor World for a number of years, and has been noted for his writings on many different subjects. He is now 66 years of age.

DOUBTFUL IF KILAUEA
NATIONAL PARK PLAN
CAN BE ACHIEVED SOON

Prof. T. A. Jaggar, Jr., director of the Volcano Observatory, arrived today from the island of Hawaii en route to the mainland. One of the main objects of his trip is to urge upon members of Congress the setting aside of the proposed Kilauea National park reservation.

"I am rather doubtful if much can be accomplished at this session. Pressing legislation may prevent Congress from giving much attention to this bill, but I shall do what I can to help it along," says Prof. Jaggar. "Personally, until I have consulted with the delegate or his secretary I will not know just how the matter is to be presented."

Prof. Jaggar will go from here to Massachusetts. He is a member of the faculty of Massachusetts Institute of Technology. From New England he will go to Washington. He leaves on the Matsuo Wednesday.

MEN WHO FAVOR MODERN CHARTER PLAN TO FIGHT

Andrews Rejected Offer to
Compromise if Most Vicious
Points Were Changed

CLAIM MURRAY LOOKS
ON POSITION AS HIS

Said to Aspire to Post of Super-
intendent of Public Works
if Majority Wins

Members of the recent charter convention who favored the short ballot and who submitted the minority charter draft, will not make any formal minority report to the legislature when that body is asked to approve the charter, but as individuals a number of them will appear to explain their position, and to ask the legislature to refuse to approve the charter.

W. O. Smith said today that he would be one of those to go before the legislature; W. C. Achi expressed the same intention, and C. F. Chillingworth, member of the upper house, said that he would oppose the majority draft in every possible way.

Just before the meeting of Friday night at which the patched-up charter was forced through, Delegate Smith and Lorrin Andrews had a conference during which the latter said that he understood the minority men were going to try to delay proceedings and prevent any action by the convention, and that if that was the case the majority would have to force the measure through. Andrews said the convention must do something and that the majority did not propose to let the opposition block all action by filibustering. Smith's answer was that he had no intention of supporting any attempt to block action and as a member of the minority was convinced that there would be no effort of that kind made.

"I do not like this charter," Mr. Smith told Andrews, "but in order to get a charter I am willing to sacrifice my views to a certain extent, and if the majority will change three or four points, I will support the charter and help to get it through the legislature. The proposal to elect a superintendent of public works and give him large powers is entirely wrong. He should be appointed by the supervisors, so they could regulate his work. Support Was Offered."

"To give the mayor power to appoint district magistrates means to put those offices on the list of political spoils and would erect a barrier behind which a dishonest official might hide. Taking the mayor's veto power away is another serious mistake. If the majority will rectify some of these glaring errors the minority will accept defeat for their ideas and support the charter as drawn."

Andrews refused to yield any point and the charter went through as it was with the minority members stirred up against it. So much feeling was created at the Friday night meeting that there is now practically no chance for getting the measure through the legislature.

As a sidelight on the situation in relation to the office of superintendent of public works, remarks made by Harry E. Murray, assistant manager of the Honolulu water and sewer department, are illuminating in relation to the rumor that the position of superintendent of city works is being made for him. Murray said recently to one of the leaders of the minority:

"I don't see why you keep hammering that superintendent of city works proposition when you claim to be my friend. It looks as though you are trying to keep me from getting a good job."

The financial report of the charter convention, as made by Clerk William Coelho, shows that there is now on hand \$282.53, with \$100.75 still to be paid out, which will leave a clear balance of \$181.78 to be refunded to the Bank of Hawaii as part payment on the \$790 advanced by the bank to finance the convention. The legislature will be asked to appropriate money to repay the balance of the loan.

EXPECT TWO HUNDRED FOREIGN WAR VETERANS AT MEETING TONIGHT

At the second meeting of Hawaiian Post No. 94, Veterans of Foreign Wars, which is to be held at the armory tonight, the charter of the new organization will be closed, and it is expected that more than 100 names will be added. Twenty-two signed the charter at the first meeting.

According to Adjutant C. J. Edwards more than 200 men have sent notice in writing or over the telephone that they expect to attend the meeting. Many of the prospective members are now in the army and are also members of the Spanish War Veterans, with which the Foreign War Veterans does not conflict in any way.

A committee will be appointed to night to find out whether the armory can be secured as a regular meeting place for the organization, and what the rental will be.

A brick chimney in an Akron, O., house has grown six inches in the last two years. Building Inspector Gill, called to investigate, found that the chimney had been built on a tree stump that has since sprouted.

AUSTRIA DEFENDS ANCONA SINKING; SAYS TIME GIVEN TO ALL FOR ESCAPE; SAILORS CROWDED FIRST IN BOATS

GERMAN OFFICIAL CABLEGRAMS

The following cablegram from official German sources was received yesterday:
"German Headquarters Report, Nov. 14.—The armies of Gen. von Koeves and Gen. von Gallwitz, after tenacious combats, again threw the Serbians back on the whole front, imprisoning 13 officers and 1700 soldiers. Two cannon were taken."

"Gen. Boyadoff's Bulgarian troops, in conjunction with the Germans, have advanced from the southern Morava valley section."

"On the east front Gen. von Linsingen's German troops have entered the Russian lines near Bogdacie, north-west of Czortowak, imprisoning 1515 Russians and taking four machine guns. Russian attacks north of the railroad at Khele's were made by the army, but broke down before the Austro-Hungarian lines."

TODAY'S SITUATION.
The following cablegram from official German sources was received today:

"German Headquarters Report, Nov. 15.—The pursuit of the Serbians is going on along all fronts; 8500 Serbians have been captured and 12 cannon taken. Out of this number 7000 Serbians and six cannon were taken by the Bulgarians."

"On the west front the Germans have stormed a 300-meter French trench northeast of Enrie."

"On the east, Gen. von Hindenburg's army has repulsed Russian attacks near Smorgan. Gen. von Linsingen's German and Austrian troops have attacked Russian positions on the west bank of the Styr. The Russians were driven back and the whole west bank of the Styr is now free of Russians."

CARRANZAS SAY VILLA ON RUN

[Associated Press by Federal Wireles]

WASHINGTON, D. C., Nov. 15.—The Carranza agency reports that the Carranzistas who have been operating against the Villa troops in the region of Agua Prieta have won another victory. Carranza cavalry has occupied Naco, Mex., and has chased 20,000 Villistas toward Villavieja.

NOGALES, Ariz., Nov. 15.—The Villa governor of Sonora reports that Gen. Villa with 9500 men and Chief Urbalejo with 1100 Yaqui Indians has attacked Hermosillo.

TRYING TO PROVE LOS ANGELES EXPLOSION DUE TO SOME NATURAL CAUSE

[Associated Press by Federal Wireles]

LOS ANGELES, Cal., Nov. 15.—The attorneys defending Matthew Schmidt, accused of criminal conspiracy in the Times dynamiting case, are now trying to prove that either gas or printer's ink might have caught fire and caused the explosion which wrecked the Los Angeles Times five years ago.

S. P. TRAIN GOES OVER EMBANKMENT; MANY ARE HURT; NO FATALITIES

[Associated Press by Federal Wireles]

FRESNO, Cal., Nov. 15.—The Southern Pacific train has been derailed at Knowles and has gone over an embankment 14 feet high. One coach is upside down. Many passengers are injured but so far as known there are no fatalities.

WAR EXPORTS HELP NEW YORK TO SET PORT RECORD

[Associated Press by Federal Wireles]

NEW YORK, N. Y., Nov. 15.—Exports from the port of New York for the month of October amounted to \$175,000,000, the greatest in the city's history.

Arthur H. Page, head of the cotton brokerage firm of Arthur H. Page & Co. of New Orleans, died suddenly in his apartment in a downtown hotel in Chicago. Heart disease was believed to have been the cause.

Black Sea Base For German Divers

LONDON, Eng., Nov. 15.—Varna, the Bulgarian port on the Black Sea, has been made the base of operations for German submarines, according to news from Saloniki.

Italian Line Cancels Sailings

NEW YORK, N. Y., Nov. 15.—The Italian line has canceled the sailings of its steamers to America from Palermo, saying that the government needs the vessels.

Earl Of Seafeld Killed At Front

LONDON, Eng., Nov. 15.—James Ogilvie Grant, Earl of Seafeld, has been killed fighting in France.

COMMANDS AUSTRIANS ALONG ITALIAN FRONT

Archduke Ferdinand Eugene, who is said to have won several important successes lately.

WILSON HELPS MAN WHO RAPPED HIS ENGAGEMENT

President Orders Assistant
Postmaster Reinstated Un-
less Other Charges Valid

[Associated Press by Federal Wireles]

WASHINGTON, D. C., Nov. 15.—President Wilson has ordered the reinstatement of George Burkitt, assistant postmaster at Winnetka, Ill., who was removed from his office because he passed adverse criticism on the president's engagement.

The president's order is to the effect that unless other charges caused the removal of Burkitt, he is to be given back his position at once.

STEAMER GOES ASHORE; 10 DIE

[Associated Press by Federal Wireles]

BORDEAUX, France, Nov. 15.—The Spanish steamer Barnade, from Cardiff for Bilbao, grounded during a gale off the mouth of the Gironde river and was lost. Ten of those aboard perished.

MINNESOTA AND NEBRASKA WINNERS IN FOOTBALL ON SATURDAY; ERRORS MADE

[Associated Press by Federal Wireles]

Transposition of scores in the report of two big intercollegiate football games Saturday puzzled many Hawaii football fans and elated or depressed the supporters of the teams according to their affiliation. The correct scores of the two games—Chicago-Minnesota and Kansas-Nebraska—are as follows:
At Minneapolis—Minnesota 20, Chicago 7.
At Lawrence, Kan.—Nebraska 33, Kansas 0.

WITH SINKING SHIP FOR BACKGROUND—SALONIKI RE-
PORTS GERMAN DIVERS HAVE BASE AT VARNA—WIN-
STON CHURCHILL URGES DARDANELLES CAMPAIGN BE
CARRIED THROUGH

[Associated Press Service by Federal Wireles]

The official statement from Austria upon the torpedoing of the Italian liner Ancona by an Austrian submarine in the Tyrrhenian sea (Mediterranean) last Tuesday, reached Honolulu yesterday in a despatch from official German sources, including the announcement from Vienna.

The Austrian government declares that the Ancona was warned by a shot across the bows, attempted to escape, halted only when hit several times by the submarine's surface guns, and that then only a few of the boats were lowered, although the submarine gave 45 minutes for the passengers to escape. Panic aboard the vessel and the fact that the sailors saved themselves but not the passengers are given by Vienna as the reasons for the loss of non-combatant lives. The statement declares also that the Ancona was not torpedoed until the submarine commander saw another steamer approaching, when, not daring to remain on the surface longer, he submerged his craft and sent the explosive into the Ancona's hull.

The Austrian explanation is as follows:
"Official—The Austro-Hungarian admiralty reports that the foreign press is spreading false reports about the sinking of the Ancona, which took place as follows:

"The submarine fired one shot across the steamer's prow, upon which the steamer fled, according to the order of the Italian authorities, which is 'Flee or sink the attacking submarine.' The submarine pursued the steamer and continued firing. The steamer stopped only when hit several times.

"The submarine allowed 45 minutes for those aboard to abandon the steamer, where a panic reigned, but only a small number of boats were lowered, and these were occupied principally by the crew. A great number of boats, probably sufficient for saving all the passengers, remained unoccupied.

"After 50 minutes the submarine, in the presence of an approaching steamer, submerged and torpedoed the Ancona, which sank after a further 45 minutes.

"If passengers lost their lives this was the fault of the crew, because the steamer tried to escape when it received the order to stop, and then the crew only saved themselves, not passengers.

"Reports in the foreign press that the submarine fired on lifeboats are mendacious inventions. When the steamer stopped the submarine ceased firing."

Says Germans Took "Movies" Of Crew In Sinking Vessel

[Associated Press Service by Federal Wireles]

NICE, France, Nov. 15.—The captain of the steamer Fance, which has been sunk by a submarine, says that after the vessel had been torpedoed and was going down, the German submarine came close up and took moving-pictures of the crew in small boats, with the sinking ship as a background.

Churchill Says Dardanelles Fight Worth Winning, Disregarding Life

[Associated Press Service by Federal Wireles]

LONDON, Eng., Nov. 15.—Winston Churchill, former first lord of the admiralty, who has announced his intention of quitting the cabinet to fight in France, made a fiery speech in the House of Commons today.

He declared that the operations at the Dardanelles are so important to the success of the Allies that they are worth carrying through with sustained fury and with utter disregard of the accompanying loss of life. He said that if the campaign is pressed sufficiently hard, it can be made victorious.

Italian Liner Submerged In Mediterranean; Several Lost

[Associated Press Service by Federal Wireles]

ROME, Italy, Nov. 15.—The Italian liner Firenze was sunk presumably by a submarine last Saturday in the Mediterranean. One hundred and twenty-three of those aboard were saved. Six passengers and 15 of the crew out of a total of 144 aboard are missing. There were no Americans on the Firenze, as far as known.

Many Serbians Held By Enemy

BERLIN, Germany, Nov. 15.—The Teuton-Bulgarian campaign in Serbia has resulted in the capture of 8500 Serbians and the taking of 12 cannon. Von Linsingen's army, advancing, has cleared the Russians off the west bank of the river Styr.

A Russian offensive in a new region near Smorgan, east of Vilna, has been repulsed.

Italian Towns Suffer From Air Raid

ROME, Italy, Nov. 15.—Pope Benedict has ordered the Archbishop of Verona to take measures to relieve the suffering in that section of Italy which has resulted from the bombardment of hostile air-fleets.
